EXPERIENCE

SARVPRIYA FOUNDATION | WEB STRATEGY MANAGEMENT

June 2023 – Current | Remote

- I am helping to build a Full Stack E-Commerce website for an NGO where I am working as a backend developer in a team.
- The task was to add all the basic functionality which are given in standard e-commerce websites and which will contain all eco-friendly products with a simple user interface.
- In this project we add login, registration functionality, handling http requests and defining routes and storing user data in mongodb database.

CODECLAUSE | PYTHON DEVELOPER INTERN

May 2023 - June 2023 | Remote

- Developed a Music Player software in Python using GUI framework called Tkinter.
- Developed a Plagiarism Checker in Python using a module called difflib.
- Developed an URL Shortener in Python using modules called pyshorteners and validators using Flask Framework.

PROJECTS

CAR-RENTAL | REACT, NODE JS, EXPRESS JS, MONGODB

- This is a Full Stack website for renting various cars according to customers' needs. It has home, about, cars, blogs, and a contact page also available.
- curated a robust blog section featuring informative articles on safe car driving practices and comprehensive technical insights on all available car models.
- I have also included a booking form to register cars which is stored in the MongoDB database.

WEATHER REPORT WITH CHATBOT | NODE JS, EXPRESS JS, MONGODB, API

- A weather app that shows the latest weather stats like humidity, weather speed, and temperature, and many more... for any city.
- It also contains Login and Registration functionality Integrated with a chatbot using ChatGPT API.

WEB SCRAPPER | PYTHON

- It can get top book names, titles, ratings, reviews, availability and prices based on ranking in the XML file from the Amazon Web page.
- It uses a BeautifulSoup Library and allows you to gather information and store it in a structured format for analysis, visualization, or other purposes.

CERTIFICATION/ACHIVEMENT

- Solved more than 200+ leetcode problems based on data structures.
- Completed React.Js bootcamp orgaized by Let's upgrade oraganization.
- Intern at Spark Foundation for Function Web Development.
- secured an AIR - 18 rank in Coding Ninja weeknd Contest.
- currently contributing in open source Girlscript summer of code (GSSoC) program.

SKILLS

PROGRAMMING

Proficient:

C++ • JavaScript • React •
Node Js • Express Js •
MongoDb • OOPS • Data
Structure

Familiar:

Python • Flask • HTML • CSS
• MySQL

TOOLS/PLATFORMS

Git • Vs Code • Dev C++ •
Pycharm

EDUCATION

GOVERNMENT COL- LEGE OF ENGINEER- ING, AURANGABAD

B.TECH IN INFORMATION

TECHNOLOGY

2020 - Present

CGPA - 7.7

VASANTRAO NAIK ASHRAM SCHOOL AND COL- LEGE, AURANGABAD

HIGHER SECONDARY (HSC)

2018 - 2020

Percentage - 81.85

SHRI SARASWATI BHU- VAN HIGH SCHOOL, AU- RANGABAD

SECONDARY SCHOOL (SSC)

2008 - 2018

Percentage - 93.60
